### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is WO 00/58549. WO '549 discloses a fiber suspension screening device including a housing 1, a rotor 4, a screen member 6 attached to the rotor, and a stationary screen 10 having a multiplicity of through holes. The fibers that pass the first screen 6 are subjected to the second screen 10. The second screen 10 of WO '549 functions as a secondary screen which retains a secondary coarse reject while passing a final accept fiber suspension 16. This is the opposite of the instant claims which is specifically recite a "thickener" having a multiplicity of through holes dimensioned such that substantially only liquid is permitted to pass through the stationary thickener member while retaining the fourth fraction which is equivalent to the accept fraction 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
